

Teachers from a wide range of subjects deliver 30-minute long 'Masterclasses' to stretch and inspire our students. Subject specialists present challenging concepts or skills that students may not normally get the opportunity to learn or discuss in lesson time.

Masterclasses are run for separate Key Stages (KS3/KS4) so that the level of challenge is appropriate for each age group. Free refreshments are provided for Masterclasses that take place in school at lunch time.

**Key Stage 3** sessions (Year 7 & 8) take place in person at lunch time (1.25 - 1.55pm).

**Key Stage 4** Masterclasses run afterschool via the Teams platform.

We ask that parents/carers encourage their child/ren to participate and get involved with these Masterclasses and attend as many as possible. Attendance at the KS3 Masterclass at lunchtime will earn students points towards the MABLE reward trip (if applicable to them) which takes place in the summer term.
